***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-4, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, segmenting read image data into text image data and picture image data, converting the text image data to a higher resolution than the resolution of the read image data, converting the picture image data to a lower resolution, the higher resolution being an integral multiple two or greater of the lower resolution, and processing binarized picture image data to match a size of pixels with a size of pixels at the printing resolution higher than the resolution of the read image data with the number of the pixels maintained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
